

PHILIPS

X-tremeUltinon+

LED headlights

New!

Taking white light to the next level

Philips X-tremeUltinon+ LED headlights

Philips **X-tremeUltinon+ LED** bulbs are equipped with exclusive Lumileds LED chips. These unique OEM LEDs provide up to 160% brighter light for extra visibility and up to 5800 K arctic white light. Delivering optimized light consistency, these bulbs generate less heat and feature the ideal light color for sharper visibility.

X-tremeUltinon+ LED bulbs feature a unique design that integrates the drive-box electronics into the bulb body, for quick and easy installation.

- Deliver up to 5800 K arctic white light for high-end styling that is noticeably whiter than standard
- **Up to 160% brighter light** for extra visibility
- Compact design makes installation easier in an even wider range of car models
- Direct replacement for conventional headlight bulbs
- Equipped with exclusive Lumileds LED chips

See list on back side for bulb availability.

Includes a pack of 2 LED bulbs

Philips X-tremeUltinon+ LED headlights

Taking white light to the next level.

Standard headlights

Philips X-tremeUltinon+ LED

Enhanced performance and improved design

- Improved heatsink design, with uniformity, leading to enhanced stability / better lifetime performance.
- Philips Light Repair CANbus functionality is directly integrated into our new-generation bulbs to prevent flickering.*
- Powerful bright light and superior light diffusion puts the light precisely where drivers need it.
- Patented SafeBeam technology eliminates glare to other drivers.
- AirCool technology diverts heat away from the light's critical components that enable the bulb to last longer.
- High thermal dispersion based on optimized materials and a high-performance coating.
- Up to 3000 hours of lifetime.
- Compatible with many vehicle models. Check vehicle user manual for more information on installation.

New SKUs: 9004, 9007, 9008, 9145

**In some rare cases, depending on your car model and other parameters related to your car computer, an additional CANbus might be required to further reduce the flickering effect. Please note, a separate Adaptor CANbus may still be required.*

**Important: Not for sale in the USA;
sold in Canada only.**
